The "Five Little Monkeys" rhyme is believed to have originated in the United States during the 20th century. Its origins are somewhat obscure, but it is thought to have evolved from traditional counting

and animal-themed nursery rhymes common in early childhood literature. The rhyme gained widespread popularity in the 1950s and 1960s, especially as part of children's song collections and educational programs.

And snaps that monkey out of the tree.

As the rhyme progresses, the number of monkeys decreases by one each time, with the line "Four little monkeys," then "Three little monkeys," and so forth, until no monkeys are left.

Counting and Sequential Structure

The repetitive counting structure helps children learn to associate numbers with quantities. The sequence usually follows a pattern:
