Unlike general dictionaries that aim to encompass the totality of a language's vocabulary, thematic dictionaries focus on particular subject areas, thereby offering targeted, contextually relevant lexical items.

This dictionary's primary objective is to serve as an accessible, organized, and linguistically accurate resource for users needing precise terminology in fields such as business, medicine, technology, culture, and everyday communication. Its emphasis on 3000 carefully selected words underscores a balanced approach—broad enough to cover essential vocabulary, yet focused enough to ensure depth and usability.

Historical Context and Development

Understanding the development of the Russko Latyshskij Tematicheskij Slovar requires a brief exploration of the linguistic and cultural ties between Russia and Latvia. Historically, these neighboring nations have experienced periods of political, economic, and cultural exchange, which fostered a need for effective bilingual communication.
