Ford's Framework for Managing Customer-Specific Requirements

Ford's approach to addressing CSRs is built upon a structured framework that emphasizes communication, documentation, quality management, and continuous improvement. This framework is embedded into Ford's overall quality management system (QMS), aligned with industry standards such as ISO/TS 16949, which has now transitioned into IATF 16949.

2.1 Customer Communication and Requirements Gathering

Effective management of CSRs begins with clear communication channels between Ford and its customers, including:

- Original Equipment Manufacturers (OEMs)
