Understanding the National Benchmark Test (NBT)

What is the NBT?

The National Benchmark Test (NBT) is a standardized assessment implemented across South African higher education institutions to evaluate prospective students' academic readiness for university-level study. Launched in 2010 by the Council on Higher Education (CHE), the NBT aims to supplement matric results by providing a more nuanced measure of a student's skills in critical thinking, problem-solving, and academic literacy.

Purpose and Objectives

The primary objectives of the NBT include:

- Enhancing student placement accuracy: Ensuring students are enrolled in courses suited to their current skill levels.

- Supporting institutional planning: Providing data to help universities refine curriculum design and teaching methods.
- Promoting equity: Offering a fairer assessment for students from diverse educational backgrounds, especially those from disadvantaged schools.

Components of the NBT

The NBT comprises two main components:

- Academic Literacy (AL): Assesses skills in reading comprehension, vocabulary, and written communication.
- Quantitative Literacy (QL): Evaluates numerical reasoning, problem-solving, and basic mathematical skills.

Some institutions also utilize a third component, the Mathematics (MAT) test, especially for students applying to mathematically intensive programs.
